

Jomol Jose

Python Full Stack Developer

Kerala, India — +91 9847481468
josejomol0@gmail.com — github.com/jomol-1468

LinkedIn: linkedin.com/in/jomol-jose-76570233a

Professional Summary

Python Full Stack Developer with hands-on experience designing and developing scalable web applications using Python, Django, Flask, React.js, Node.js, Express.js, MongoDB, and MySQL. Skilled in REST API development, responsive user interface design, database management, debugging, and Agile software development. Passionate about building secure, maintainable, and high-performance software solutions while continuously learning modern technologies and industry best practices.

Technical Skills

Programming	Python, Java, JavaScript, TypeScript, HTML5, CSS3
Frontend	React.js, Next.js, Tailwind CSS, Bootstrap, Responsive Web Design
Backend	Django, Django REST Framework, Flask, FastAPI, Node.js, Express.js
Databases	MongoDB, MySQL, PostgreSQL, SQLite
Tools	Git, GitHub, VS Code, Docker, Postman, Jest

Professional Experience

Python Full Stack Developer Intern — Knovista Technologies

Internship

- Developed responsive web applications using React.js, Django, and RESTful APIs with reusable and maintainable code.
- Performed API integration, debugging, testing, and collaborated in an Agile development environment.

Python Full Stack Developer Intern — Infotact Solutions

Internship

- Developed full-stack applications using Python, Flask, React.js, MySQL, MongoDB, and REST APIs.
- Optimized application performance through debugging, testing, database integration, and Git-based version control in Agile development.

Education

Bachelor of Technology (B.Tech) in Information Technology

2022 – 2025

Government Engineering College, Idukki, Kerala

Diploma in Computer Engineering

2018 – 2021

Government Polytechnic College, Chelakkara, Thrissur

Major Projects

VoiceOps Sentinel – AI Powered Meeting Assistant *Python — Flask — PyTorch — NLP — MongoDB*

- Developed an AI-powered SaaS platform for real-time meeting transcription, summarization, emotion detection, and PII redaction.
- Built scalable RESTful APIs using Flask with a modular backend architecture to integrate NLP and speech processing services.
- Optimized backend performance for low-latency processing while following Agile development and clean coding practices.

Accessible E-Commerce Platform *React.js — Node.js — Express.js — MongoDB*

- Developed a full-stack e-commerce application with user authentication, product management, shopping cart, and order processing.
- Designed responsive and accessible user interfaces using React.js with seamless REST API integration.
- Improved application performance through frontend optimization and efficient backend API communication.

Inventory & Asset Management System *Python — Django — Django REST Framework — SQLite*

- Developed a Django-based web application to manage inventory and organizational assets with secure CRUD operations.
- Built RESTful APIs using Django REST Framework for inventory tracking, asset management, and database integration.
- Implemented authentication, server-side validation, API testing with Postman, and reusable backend architecture following Django best practices.

AI-Based Medical Diagnosis Assistant *Python — PyTorch — CNN*

- Developed a Convolutional Neural Network (CNN) model using PyTorch for ultrasound image classification.
- Improved prediction accuracy through image preprocessing, feature extraction, and deep learning model optimization.

Certifications

Python Full Stack Development Internship *Infotact Solutions*

- Completed Python Full Stack Development Internship covering Python, Django, Flask, React.js, REST APIs, MySQL, MongoDB, and Git.
